### What is El Teatro?

The El Teatro Troupe is made up of multicultural and multilingual students who have created a powerful message about the challenges and triumphs of their lives.

El Teatro initially told the story of 16 Hispanic students’ experiences and was performed only in English and Spanish. Since then, the troupe has broadened to include Greeley West, Greeley Central, Jefferson and Northridge high schools.

This year the show includes cultural and hip hop dances and is performed in 12 languages. El Teatro was created to celebrate diversity, inspire understanding, and promote the fact that we are all more alike than we are different.

### Greeley Central High School Carnival

The carnival will feature multicultural activities, games, and even henna tattoos as part of their Arts Magnet Program and in conjunction with their production of Barnum (a circus themed musical) that evening. They have offered to do a student led tour through the carnival for our sessions and give a discount to conference participants to their performance of Barnum which starts at 4pm on April 6th.
